**BOARD POLICY**

**No. 1300.2**

**RE: Data Dashboard Policy**  
**Community / Board Operations**

**Adopted: 11/12/13**

**Revised: 10/6/2015**

---

In support of a coherent, aligned holistic accountability plan to inform progress toward goals on the District Accountability Plan, the Bloomfield Board of Education directs the Superintendent to establish a "data dashboard" aligned with the district accountability goals. The data dashboard will consist of a number of indicators for which data are gathered and analyzed by district staff, under the direction of the superintendent, and presented on a regular basis to the board of education and the public.

The indicators will enable the district to effectively and clearly communicate its priorities and progress to the public.

The data dashboard will do the following:

- Provide a concise, but comprehensive summary of district performance, including baseline data, targets and results;
- Present data clearly and in an easily understood manner;
- Communicate the board priorities to the community; and
- Contain regularly updated information based on regular management reports.
